

1.Prepare the bios files that need to be updated

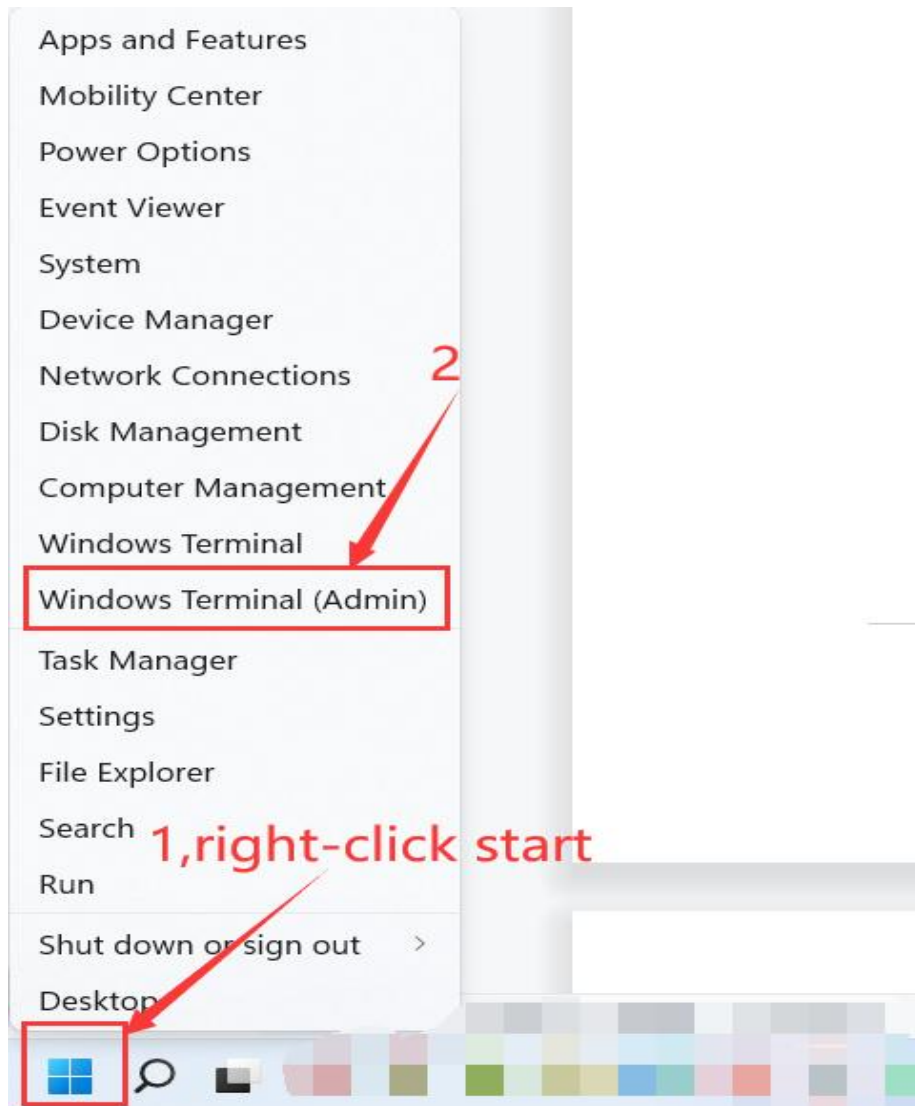

2. Extract the zip file to the desktop, the path indicated by the arrow in the figure below, and check “show extracted files when complete”, then Rename it to GTR5

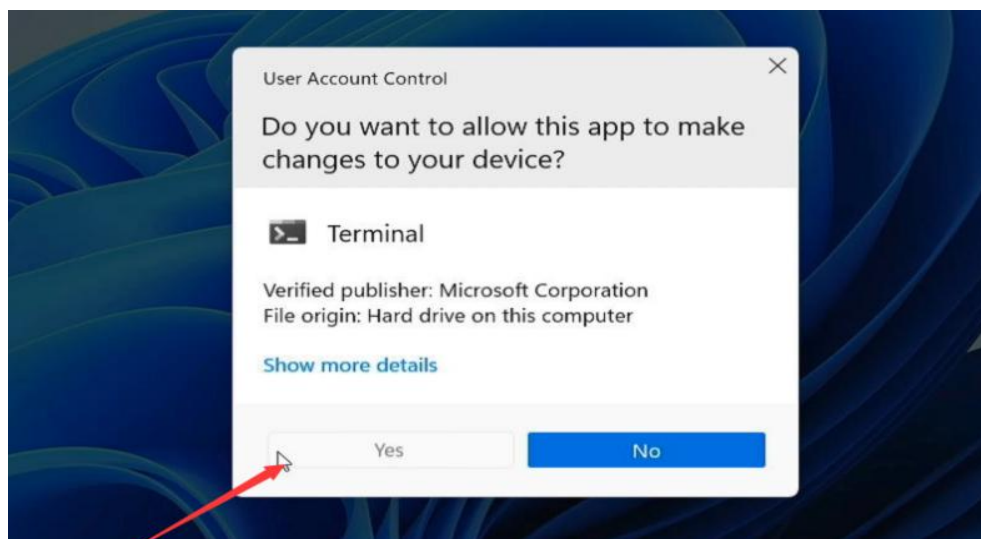

3. Open the files, Select the address bar and copy the full name (ctrl+c <use keyboard>)

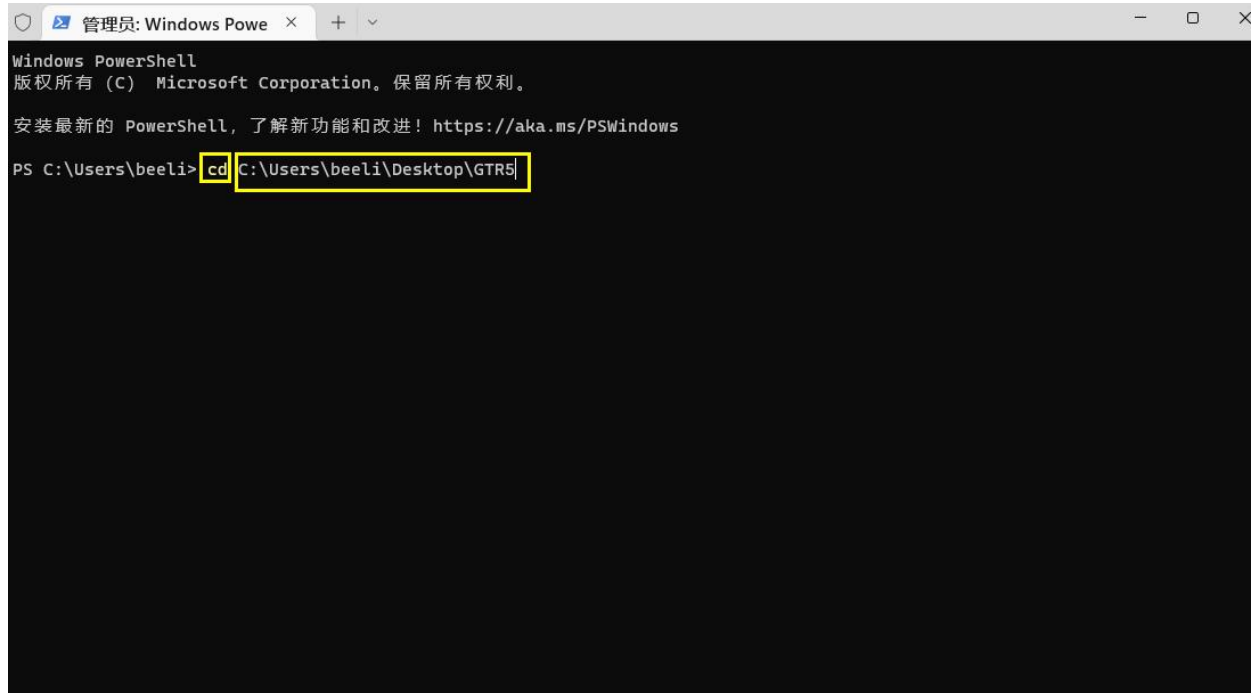

4. Right-click the Start and select Windows Terminal (Admin) (1>2)

6. Click Yes

7.Type **CD** then paste the name of the file (ctrl+v) and press the Enter<use keyboard>.

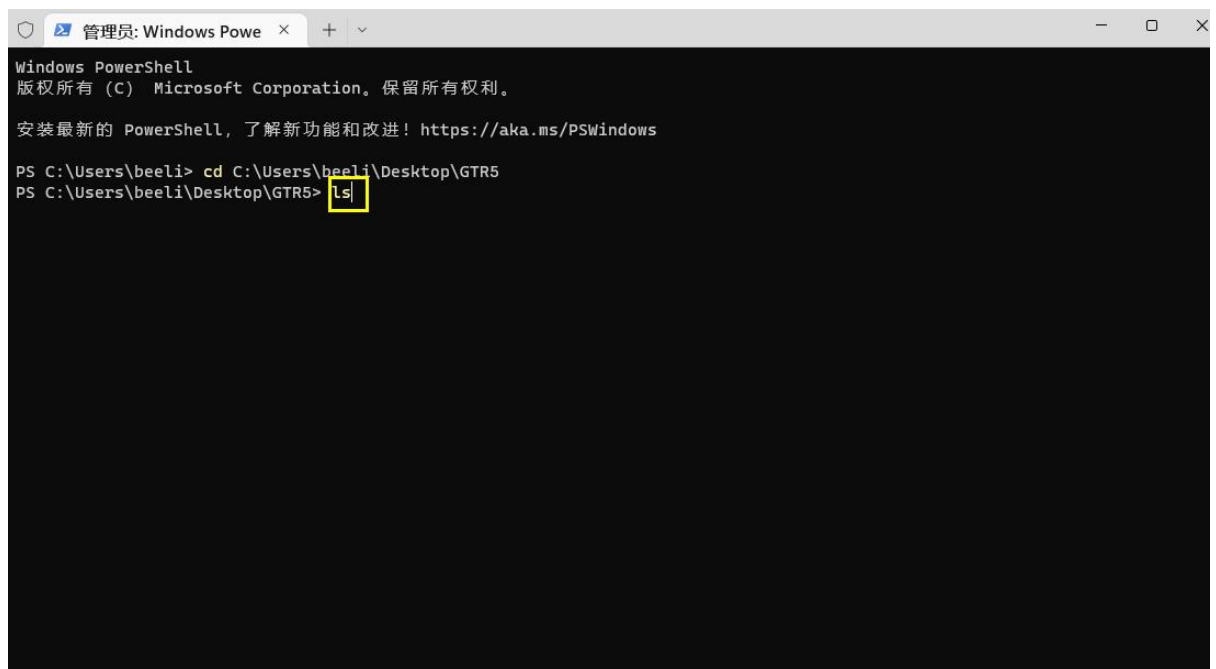

A screenshot of a Windows PowerShell terminal window. The title bar reads "管理员: Windows PowerShell". The terminal content includes the standard PowerShell welcome message in Chinese, followed by the prompt "PS C:\Users\beeli>". The command "cd C:\Users\beeli\Desktop\GTR5" is being entered, with "cd" and the full path highlighted by yellow boxes.
